

NEWLANDER POOL TESTIMONIALS

This is what some of our trained & certified dealers have written . . .

Aqua Blue Pools

"This new knowledge allows us to easily compete with manufactured fiberglass and concrete built pools by giving us the flexibility to construct different shapes"

Atlas Pools & Spas

"With ArmorGuard we will be able to offer our customers a wide variety of options, along with an affordable in-ground pool"

Simpson Construction

"In my twenty years building and renovating, I've used many products and I believe this is the best pool building and coating system available. The underwater repair and crack repair products are outstanding as well"

Verizon wrote "A complete renovation of our pool & spa which included the total removal of all

fiberglass and installation of ArmorGuard was completed in June of 1997. Tom and his crew displayed a high level of professionalism and completed the project with a high quality of workmanship in a minimal amount of time."

WE ALSO CARRY BASEMENT COATINGS THAT CLEAN UP WITH SOAP & WATER, ARE STAIN, MILDEW & ALGAE RESISTANT.

NEWLANDER POOL REBUILD PROCESS

ARMORGUARD® can be easily installed on a pool in just a few short days.

First the pool is properly drained . . . Existing surface is repaired and renovated . . . All areas are checked for hollows and blisters which are filled with our trowel material.

The ARMORGUARD® system is professionally installed by factory trained and licensed pool contractors and pool renovation companies.

First the first coat of primer is applied by roller.

The second coat of primer is applied with 18 oz. Mat to stop hydration .

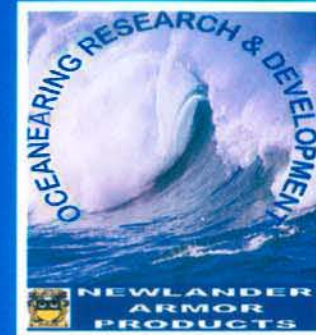

Third the first coat of ARMORGUARD® is roll applied.

Fourth a final coat of ARMORGUARD® is applied for a total of 4 coats of material.

SURFACE & LAYERS OF MATERIAL DETERMINE THE TYPE OF WARRANTY

World's Strongest Pools

Whatever pool you can dream-
Whatever pool you can design-
Whatever pool you want rebuilt-
Oceanaring R&D can do it for you!

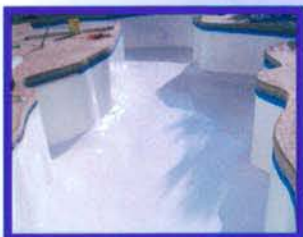

Worlds Strongest Pools! We Can Build, Repair or Resurface Any Pool!

NEWLANDER POOL NEW BUILD

If you can dream it, we can build it!
Pools can be built with vanishing edges & swim outs.

If you can design it, we can build it!
Pools can be built in any size and shape, depth or length.

Our matting & epoxy resin are 17 times stronger than concrete, twice as strong as fiberglass!

This gives you one of the strongest pools in the world, most built in just 5 days.

ArmorGuard® products are odorless & nontoxic.

ArmorGuard® is a product that combines the latest technology in epoxy coating with a history of success.

NEWLANDER POOL REBUILD & RENOVATION

The effects of old age & wear not only makes your pool look bad but is also costly.

Restore beauty, strength & chemical resistance to your pool with...

a specially formulated epoxy resin that is "state of the art" in strength . . .

completed in just a few days by our factory trained & licensed pool contractors.

ArmorGuard® is manufactured by a company with over twenty years of experience in the research & development of epoxy coatings.

ArmorGuard® is used worldwide!
